

# **CERTIFICATE OF COMPLETION**

This is to certify that

**Eduard Zvonarev**

has completed an on-line e-learning course on

**Introduction to and Overview of IAEA Nuclear Security Series Publications**

on the IAEA's Learning Management System

Content version: **1.00**

Language: **Russian**

Certificate ID: **REZBCHN6oB**

Issue date: **4 Декабрь 2021**

This e-learning is based on IAEA publications and training materials. Please note that the IAEA is not an accredited educational organization and the user's identity was neither verified throughout the learning process nor the assessment. The certificate ID is unique and is registered in the IAEA's Cyber Learning Platform.

# Introduction to and Overview of IAEA Nuclear Security Series Publications

## Subtopics

1. Nuclear Security Fundamentals
2. Developing IAEA Nuclear Security Guidance
3. NSS Publication Structure

## Learning Objectives

- 1.1 Distinguish between legally binding and non-binding documents as they relate to nuclear security.
- 1.2 Recognize that IAEA guidance is non-binding on States.
- 1.3 Describe the twelve essential elements of a State's nuclear security regime outlined in Nuclear Security Series No. 20 Objective and Essential Elements of a State's Nuclear Security Regime.
- 2.1 Explain the process by which the IAEA Nuclear Security Guidance is developed and approved.
- 3.1 Illustrate the hierarchy of the NSS publication structure.
- 3.2 Recognize that NSS No. 20, the Nuclear Security Fundamentals, provides the basis for the Recommendations.
- 3.3 Differentiate between nuclear material, radioactive material, and material out of regulatory control as the basis for the structure of the guidance.
- 3.4 Describe the scope of the three Recommendation level publications.
- 3.5 Discuss how the Implementing Guides and Technical Guidance support the Recommendations.
- 3.6 Recognize that the glossary is based on approved terms and definitions of the NSS.
